Geënt

Geënt is an intensely, physical duet that explores the inner working of relationships. How we strengthen and support each other, and how we trust and rely on each other, but also how we lean on each other and sometimes drag each other down. Simultaneously, the intimate material shows the beautiful and the suffocating aspects of a relationship. In *Geënt* you will witness the tremendous effort put forth by the dancers to remain together as a couple.

Geënt is an intimate performance based on *Grafted* that Ugo made in 2013 for five dance couples.
